Primary Health Care Regina Chronic Pain Clinic Referral Form

1056 Albert St. Regina, SK., S4R 2P8
P: 306-766-6370 | F: 306-766-7045

- * To be filled by referring health care provider.
- ** Please note: all patients must have a primary care provider
- *****Incomplete referrals will be returned**

Acknowledgement: This new Regina Chronic Pain Clinic referral form is inspired by the Toronto Academic Pain Medicine Institute (TAPMI) referral form.

The Regina Chronic Pain Clinic is an interdisciplinary team made up of physicians, nurse practitioners, a registered psychiatric nurse, a pharmacist, and licensed practical nurses. We offer a multi-modal approach to chronic non-cancer pain management which can include, but is not limited to, medications, mental health support, exercise therapy, traditional indigenous medicine, and interventional medicine. We manage chronic pain patients until an optimal and safe care plan is achieved. We will transition your patient back to your care once stable. **Physicians and nurse practitioners will not take over prescribing permanently.**

Is the patient willing to participate in interdisciplinary care strategies? Yes ___ No ___

Priority:

Urgent if

- Acute intervertebral disc herniation or sciatica (onset in the last 6 months)
- Complex Regional Pain Syndrome (onset in the last 6 months)
- Post-surgical nerve injury (onset in the last 6 months)
- Requires chronic pain management prior to surgery (surgery within 6 months)
- Suspected early post-herpetic neuralgia (onset in the last 6 months)
- Traumatic nerve injury (onset in the last 6 months)

Semi-urgent if

- Palliative with life expectancy over 12 months
- More than 200mg/day of morphine equivalent dose (MED) AND one or more of the following: concerning aberrant drug-related behaviors, benzodiazepine use, alcohol consumption

Routine if

- All other types of pain

Updated urgency level determined by CPC triage
